

JustLaw
נגישות לצדק. לכולם.

Access to Justice. For all.

Value Proposition

JustLaw Israel promotes the development of advanced technologies to make justice user-friendly, data-driven and people-centered and ***expand Access* to Justice*****

Glossary

***Access:** The ability to act independently, with minimum mediators and maximum choice options to receive Justice

****Justice:** 1. High quality legal services
2. execution of civil rights

Challenges

Lack of information

Bureaucratic intimidation

Lack of social capital

Lack of resources

Lack of awareness

Targets :

1. **Build an interdisciplinary and inter-sectors coalition:** law and justice, social welfare, and technology
2. **Promote entrepreneurs, institutions, mechanisms, and technological tools** which remove barriers to ATJ
3. **Lead the field of ATJ** within the Israeli innovation ecosystem
4. **Join forces with international ATJ movements and players** to align Israel with countries that promote ATJ

KPIs

Products:

- Develop a JusticeTech technological spam (NLP/AI) tool
- Create a structured consultancy model to accompany early JusticeTech and LegalTech initiatives
- Create a publicly accessible ATJ index

Community:

- Promote Justice pain points and opportunities research
- Promote action coalition including academia, public sector, industry, NGOs, and impact investors stakeholders
- Produce community and general public meetups/ webinars/ conferences

What have we achieved so far?

- About 300 followers and partners in wider circle
- About 100 participants in a 2021 Hackathon, 80 participants in 2022 Meetup
- Over 25 ATJ initiatives received advice
- JusticeTech tool in production
- Consultation to The Innovation authority on Hebrew Legal databases
- Direct connection to the Utah Office of Legal Services Innovation
- Director connection and mentorship from parallel global organizations such as Justice Technology Association

Team

Since 2005, Adv. **Omer Brandes**, has been acting as an entrepreneur and investor to legaltech ventures as well as a privacy legal expert. He has provided business and legal advice to Tech ventures for the past decade and has developed a technological tool (MVP) to prevent spam and receive compensation.

Adv. **Bat-chen Schlesinger**, community social worker, former attorney at the civil Attorney General's office and holds a master's degree in public policy. Involved in the Jerusalem High tech ecosystem as the Outreach Director of the ASPER innovation and entrepreneurship center at Hebrew University.
